

Find your ride

Open **cmu-rowing.pages.dev** on your phone or computer.

1. Ask your rowing organiser for the **team access key**. Enter it and select **Enter planner**.

CMU ROWING / TEAM ACCESS

Your crew. Your plan.

Enter your club access key to continue.

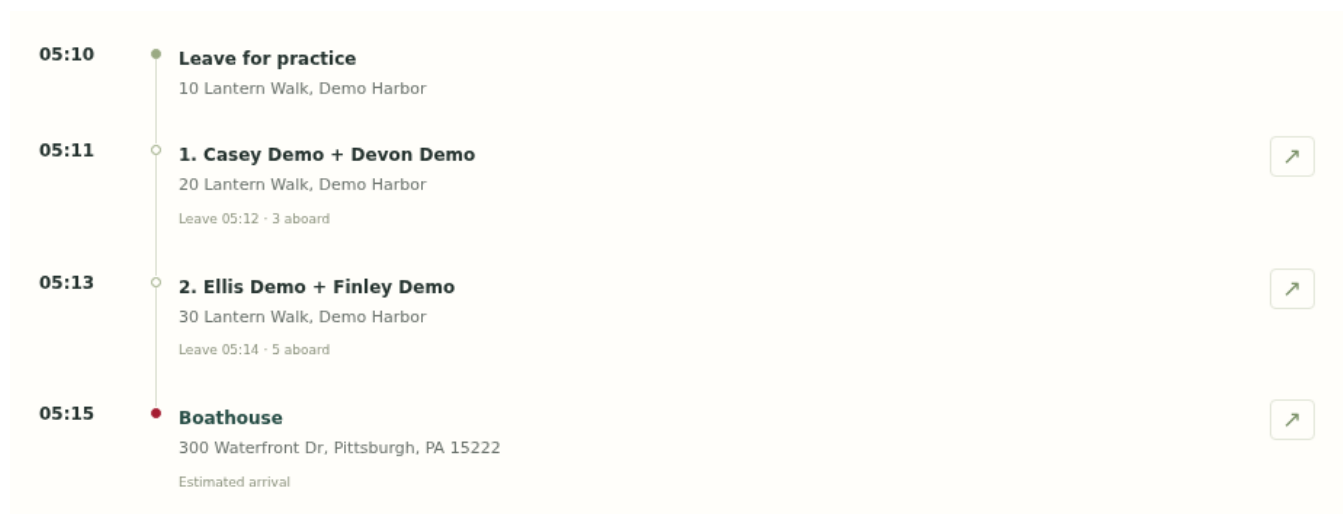

Access key

Enter planner →

Enter the key your organiser gives you.

2. Choose your practice date and find your name in a car.

3. Select **Show route** to see the pickup places and times.

Example pickup details. Your name, date and times will be different.

4. Select **Open in Google Maps** if you need directions.

Check your pickup time and place before leaving. If your ride is missing or the details are wrong, contact your organiser.

Fill in three Excel files

Use the empty templates, or make a copy of the Week 3 examples. Fill in the three files below.

members.xlsx

Enter each person's name and full pickup address.

Name	Pickup address
Alex Example	5000 Forbes Ave, Pittsburgh, PA 15213
Sam Example	4400 Fifth Ave, Pittsburgh, PA 15213

attendance.xlsx

Choose Yes if the person is attending, or No if they are not.

Name	2026-10-20	2026-10-21
Alex Example	Yes	Yes
Sam Example	Yes	No

drivers.xlsx

Choose Yes if the person can drive that day, or No if they cannot.

Name	2026-10-20	2026-10-21
Alex Example	Yes	Yes
Sam Example	No	No

The tables above are examples. Use your own people and dates.

Before you save: use the same name spelling in all three files and the same dates in Attendance and Drivers. Keep the sheet names **Members**, **Attendance** and **Drivers**. Save each file as **Excel (.xlsx)**.

Empty answers count as No. A driver marked Yes is assumed to have five seats, including their own. You can adjust the seats later.

Using Week 3? Its dates are October 20–24, 2026. Confirm the dates, addresses, attendance and drivers before using it.

Using Google Sheets? Select **File** → **Download** → **Microsoft Excel (.xlsx)** for each file.

Upload and plan

1. Sign in with your **admin access key**.
2. Select **Choose Excel files**. Choose members.xlsx, attendance.xlsx and drivers.xlsx together.

01 / SET UP YOUR CREW

One week. All aboard.

Choose Excel files

Select members, attendance, and drivers together, or drop them here.

▶ Excel templates

▶ Private Excel files · admin only

Choose all three files in this area.

3. If the website asks you to correct something, fix it in Excel and upload the corrected file.
4. Check the destination and **Arrival deadline** near the top of the page. All times are Eastern Time.
5. Select the practice dates, then select **Plan week**. Wait for the car arrangements to appear.

02 / PLAN THE EARLY START

America/New_York

Good mornings start here.

Practice dates

☒ 2026-10-05

▶ 4 notices · planning is available

1 practice days. One shared plan.

Edit published routes

Arrange manually

Plan week →

Select the dates you need, then choose Plan week.

Updated a file? Upload it again and make a fresh plan before sharing it with the team.

Check and share

1. Check every practice date: drivers, passengers, pickup places and times. Select **Show route** to see a car's pickup order.

03 / YOUR WEEK ON THE WATER

A seat for everyone.

Download Excel ↓ • CONSTRAINTS CHECKED

5
2 cars

Monday, October 5 Arrive by 05:15 ET

DRIVER
Avery Demo Show route +

Riders Casey Demo Devon Demo Ellis Demo Finley Demo

DRIVER
Blair Demo Show route +

Riders None

Check each car. Download Excel gives you a copy of the arrangements.

2. When everything is correct, select **Publish to team**. Everyone with the team key can now see the plan.

Share with your crew

Publish the checked routes when your plan is ready.

Publish to team

Share the plan only when it is ready.

Need to change a ride?

Select **Edit routes**, adjust the arrangement, then select **Generate updated plan**. Check it again and select **Update published plan** to share the change.

Coming back later? Open **Private Excel files · admin only**, select **Load saved files**, then select **Edit published routes**.

Quick help

- Someone is missing? Check their Attendance answer and name spelling.
- A pickup is wrong? Correct the address and make a new plan.
- A route fails? Check the address and internet connection, then retry.
- An Uber trip appears? Book it separately; the website does not book rides.
